

FREE SAFETY & MAINTENANCE CLASS

Conducted at Braeside, Victoria

**A guide for all relevant staff on how-to minimise maintenance shutdowns,
plus the latest safety and environmental innovations,
when operating Conveyor Systems & moving Bulk Materials**

Kinder and Co. has an intimate understanding of all heavy process industries based on more than 26 years successful supply to the Bulk Materials Handling industry. Our sales and technical personnel are qualified Diploma or Degree Engineers, with industry awareness and practical experience to provide best case solutions. We are also regularly invited to present seminars and write industry articles on conveyor problem areas. Furthermore, our ongoing and important commitment to diagnose and advise potential conveyor safety issues during our site visits is a responsibility we take very seriously.

Based on our extensive practical knowledge of the conditions operating at Bulk Material Handling sites, Kinder are happy to announce that we can now offer Safety & Maintenance training classes at our facilities in Braeside. If your workers can afford the time (after hours is available), and we have sufficient numbers, Kinder will impart a comprehensive how-to on operating your facilities at their safest and most efficient.

Kinder proudly hosted future Bulk Materials Handling workers, with our recent training day for students studying Cert 4 in Surface Extraction Operations at Box Hill TAFE.

Our conveyor display / training rig incorporates all the latest modern hardware utilising best practise engineering to run your equipment at maximum safety and efficiency

By utilising our fully assembled and equipped Conveyor Test-Bed, supported by PowerPoint and Video presentations, plus detailed documentation and hand-outs, we can educate your relevant employees on best practise safety and maintenance techniques. Our estimation of the time required to complete this class will be around 3 hours, and drinks and snacks will be provided.

If you are interested in this important, instructional and educational event to empower your employees with maximum knowledge, please don't hesitate to contact me on (03) 9587-9244 or davidb@kinder.com.au
