

K-Screen Accessories - Vibrating Screen Components

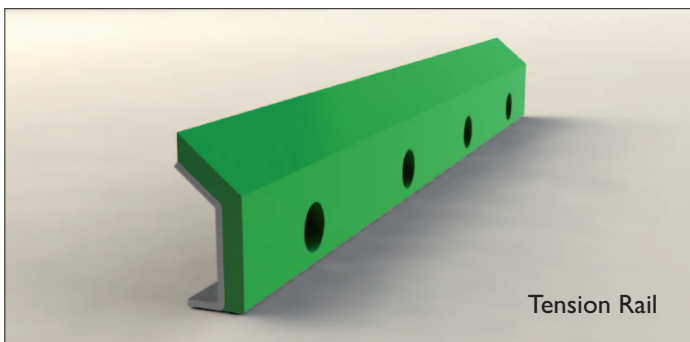

K-Screen Accessories cover a comprehensive range of components used to ensure maximum life and efficiency of the screening media. The range also covers high performance quality machine wear parts.

Screen Accessories and Components

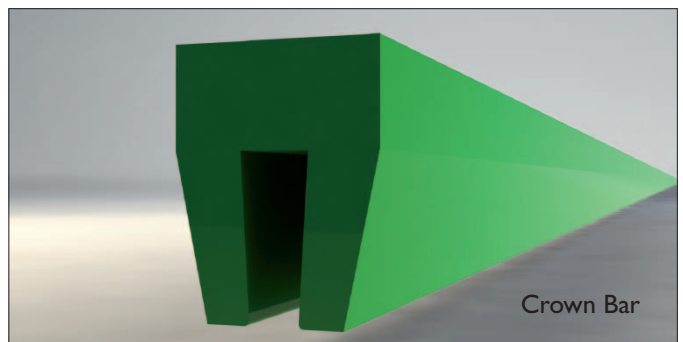

- Screen Tension Clamps
- Spray and Flood Nozzles
- Discharge Lip, Feed Box Liners and Side Plate Liners.
- Impact and Wear Panels
- Bolt Protection Caps
- Vibrating Shaft Tube Protectors

Essential to the maximum life of the screening media is proper support and tension. The crown bar cover must remain in good condition to withstand continuous vibration.

Our K-SuperBar Crown Bar cover lasts up to 5 times longer than rubber. It is long legged to prevent twisting off during screen installations.
